Uplift is a positive clothing brand that is meant to be the good in the world. We strive to help replace the negativity in the world with good, and give hope to the lives of young adults struggling with mental health.

We create clothing with unique designs to spread love and kindness to everyone that wears and sees our clothing. Our small business began in 2022, and we can't wait to continue to grow!

# who we are

Our mission is to build up the world around us with positive messages, bring hope to our young adults, and give them the opportunity to be the good in the world.

With every item we sell, **we donate 10%** to non-profit mental health charities to help improve treatments and help for mental health challenges.
