Very Happy With This Product

The sound quality is clear and the device is easy to maneuver with one hand while riding a motorcycle, even rode it thru a rain storm. It's easy to install and operate.

A Great Purchase

I opted for these due to the knob and big button so I wouldn't be fumbling with anything small with my gloves. I love those features. It's got great sound and I can hear it even on the highway and at speeds of 130+ I

Amazing Support

I purchased my Syphon Soundpro instead of a traditional headset so I could use it for solely for listening to music and nav while riding. I enjoyed the system for quite a few months before I had my helmet

Why is Syphon the Best?

How necessary is a sound system?

How can communication help?

Why does calling capability matter?

Is this product suitable for kids under 18?

Does Syphon sound system make it safer to ride?

Will this make wearing a helmet bearable for those who hate it?

Why does my spouse keep asking for these?

Why is Syphon the Best?

Out of the top 23 Amazon results Syphon is #1 in providing the highest level of professional sound. Cardo, Feyra, Kalence, and other top rated brand have lower levels of impedance, the thing that gives great sound. To give perspective, Cardo's headsets have 2 ohms of impedance while Syphon has 115 ohms. Kalence was the second highest at 80 ohms. Syphon is a serious step up in comparison.
